Junior & Adults Schools of English in central London, suitable for family groups

Summer programmes, from 6/6 to 26/8/11, for 3-11 year old children in London are provided by an excellent school on Regent's Park, clearly recognised by the British Council, and a member of English UK. Year-round programmes for 11-17 year old children in London are provided by the same school in its buildings in Camden.

If parents have come with their children, they can take their courses, starting an hour later, in the school's building in Soho, or, in summer, in Regent's Park.

Children and staff from over 50 countries, including the UK, form a dynamic learning community.

Maximum class size is 16 students (18 for the 3-11 year-olds). Lunch is included on all the children's courses. Classes and activities start at 09h00 and end at 15h20-15h40, Monday to Friday. Adults taking a course have time to take their children to school before going on to their own classes, and then pick them up afterwards and take them home.

There is also an "English for Education" programme in the summer operating from 6/6 to 26/8/11, for 10-17 year-olds. The main focus of this programme is for students to improve their English through fun activities. As well as General English, learners have opportunities to develop English through other disciplines like Art, Drama, Science, Maths and Geography linked together by weekly projects such as water, space or nature.

Each week students go on a Discover London trip which links in with the topic of the week. An afternoon of sport is also included and students can play in Regent's Park at morning break and lunch time.

Discover London

All English courses have 'Discover London' academic excursions to museums, galleries and famous historical sites. The focus is on using London as an outdoor classroom. The students do intensive preparation for the excursion, complete tasks and worksheets whilst on the excursion, and do follow-up work when they get back to class.

Sport

All courses have one sports session per week during which students practise hand-eye co-ordination and undertake aerobic exercise, as well as sports such as football and softball.
